

# 4 IN 1 MULTI-CABLE

Take a look at the ECO-friendly alternative to our 4-in-1 multi cable, made from an environmentally friendly wheat straw material! Wheat straw is the stalk left over after wheat grains are harvested. Traditionally, it has been treated as a waste. In some countries, farmers burn it, contributing to air pollution and creating a public health hazard. When mixed with other materials, it becomes an amazing plastic substitute and helps against the impacts of plastic waste.

Featuring 3 cables and a USB, the multi-cable will keep a wide range of devices powered, from Micro-USB, Type-C and Lightning! The 4-in-1 cable comes with an ideal branding area of 17 x 12mm, and is capable of full colour, spot colour and engraving (wooden option only). Simply plug into a certified power source or computer to charge your devices up!

## Features

- ✓ Made from ECO-Friendly Wheat Straw material alternative
- ✓ Suitable for: Micro-USB, Lightning and Type-C
- ✓ 2 ECO-Friendly models to choose from
- ✓ Supports charging & data transfer
- ✓ Lead Time: 2-3 weeks
- ✓ MOQ: 50 units
