

# WEBCAM COVER

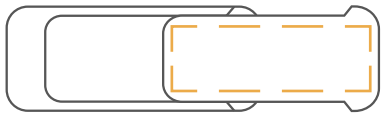

Cyber-security protection has never been so important to protect you from malware or remote administration gaining access to your computers and webcam. What's the best way to protect yourself? The Smart Webcam Cover, now available in a wheat straw material, which is the stalk left over after wheat grains are harvested. Traditionally, it has been treated as a waste. In some countries, farmers burn it, contributing to air pollution and creating a public health hazard. When mixed with other materials, it becomes an amazing plastic substitute and helps against the impacts of plastic waste.

Applying and using the webcam cover couldn't be easier simply remove the adhesive back and place over your webcam. slide the cover open when you want to use your webcam, and closed when you don't. The Smart Webcam Cover is designed to complement most laptop and PC webcams and thanks to its ultra-slim design, closing your laptop won't be a problem. The Webcam Cover can be branded with 1-2 spot colour print, along with a backing card that can be branded full colour.
