

WIRELESS PHOTO FRAME

The Wireless Photo Frame is exactly what it says on the tin! Display your favourite family portraits and then wirelessly charge your devices! The Wireless Photo Frame consists of a plastic frame with a built in wireless charging pad, for a quick and easy wireless charging solution. Simply place your Qi Enabled device on the right side or bottom of the frame from an instant charging. With branding all around the frame, the Wireless Photo Frame is the perfect desktop accessory! We also have a recycled eco-friendly option, made from wasteful wheat straw and recycled plastic.

*Please note: These product images are used for illustration purposes only and the colours of the final product may vary slightly.

Product Weight: 244g

What is wheat straw?

Wheat straw is the stalk left over after wheat grains are harvested. Traditionally, it has been treated as a waste. In some countries, farmers burn it, contributing to air pollution and creating a public health hazard. When mixed with other materials, it becomes an amazing plastic substitute and helps against plastic waste.
