Travellers from all over the world can plug in their devices securely on all continents. With the country slider system developed by SKROSS®, users can simply slide out the required plug for their travel destination. The multinational socket layout on the input side allows travellers to use 2-pole plugs from just as many different countries. Compatible around the globe, the travel hub is a must have for worldwide travelling.

Features

✓ Retractable plugs: Euro, USA/Japan, Australia/China, UK

✓ Input voltage: 100 V - 250 V

✓ Suitable for all 2-pole (unearthed) devices

✓ Lead Time: 3-5 Weeks

✓ MOQ: 50 units

The compact, versatile World Adapter MUV USB from SKROSS® can do everything you want it to, all at once. While the adapter provides the correct connection for your electric razor, the dual USB charger module can top up the battery on both your smartphone and your tablet. All this is made possible by a dual USB charger, which has been directly integrated into a SKROSS® travel adapter for the first time. This means that during the charging process, the connection side of the adapter is left free and can be used without restriction. The dual USB port provides sufficient energy to charge two USB devices easily, even if another device is connected via the adapter at the same time.

Features

- ✓ Retractable plugs: Euro, USA/Japan, Australia/China, UK
- ✓ Input voltage: 100 V - 250 V
- ✓ Suitable for all 2-pole (unearthed) devices
- ✓ Lead Time: 3-5 Weeks
- ✓ MOQ: 50 units
- ✓ Dual USB port for charging USB devices
- ✓ Max. load: 2.5 A
- ✓ USB output: 5 V / 2400 mA

SMART | Selfie

- 6 Stylish Handle Colours
- Rubber Grip Handle
- 3.5mm Headphone Jack

The Smart Selfie is modelled on the world renowned selfie stick but has been adapted to have a sizeable print area and a more compact shape. Smart Selfie gives an overall extension of 88cm, and measures just 18cm when folded!

This makes it perfect for on the go snap shots, promising great photos from a whole new angle. The Smart Selfie comes in a specially designed box that keeps the product secure, whilst maintaining a contemporary feel that stands out from the rest of the market.

The Smart Selfie operates by plugging the 3.5mm audio cable into your Smart phone's headphone jack and operating the camera shutter via the button on the handle. This way of operating the product ensures there are no charging worries, or loose accessories required.

CE FC RoHS

Stylish, portable, smart 3D projector; the XGIMI Cc is now part of our innovative line of products. The Cc can project up to 300 inches of HD Ready entertainment with clear auto-focusing lenses. This high definition video is backed up by audio experts JBL, with dual 40mm speakers that create clear layered acoustic sound. Cc's built in 20,000mAh battery, which can stay powered for up to 8 hours to keep you entertained on-the-go, or plugged in for continuous playback.

Cc can project up to an impressive screen size of 300 inches with incredible resolution of 1280x720 pixels, but can also support 1080p and 4K videos! With advanced auto-focusing lenses, your picture will automatically adjust for you, or you can manually adjust the focus on the included remote. There is also no need to buy 3D movies to enjoy a captivating experience. Advanced Active Shutter 3D technology means any 2D film can be watched in 3D.

The impressive sound system is made by audio experts JBL, so this projectors crisp picture quality wont be let down by the sound. The dual 40mm speaker produces a layered acoustic sound with noticeable bass. With 16GB flash memory built into the projector, you wont have any issues storing your favourite movies or music. The XGIMI app connects Android devices seamlessly to Cc via Bluetooth, to stream and play content as well as act as a remote control.

Automatic sleep monitoring analyzes your sleep quality.

Smart vibration alarm, vibrates at set time to wake you up

Refined from within

The glossy black display is UV coated and resistant to scratches and fingerprints. Textured for a better touch, the anodized button has 0.05mm ripples etched across the surface. The high-precision accelerometer and heart rate sensors are not just accurate, they are also extremely power-efficient.

Hypoallergenic band

The band is made of TPSIV - one of the world's best thermoplastic elastomers. Its outstanding anti-UV, anti-microbial, and anti-allergic properties mean that it's unlikely to irritate even the most sensitive skin.

SMART / Light

A quick and easy source of light

Our brand new Smart Light was designed with simplicity and class in mind. Featuring one simple button that can control your light temperature, and strength. The Smart Lights compact size and ease of use makes it perfect for a number of different situations, from book lighting to selfie light.

The Smart Light comes in 4 colours; black, white, gold and pink, which can be printed 1-2 spot colour in 4 different locations so no matter how you use your selfie light, the branding will always be visible. The metallic pink and gold coloured Lights are really eye catching and works great with matching print.

The Smart Light has 8 LEDs; 4 orange LEDs (soft light) and 4 white LEDs (hard light). These LEDs can be controlled by a simple push of a button. The button can control which LEDs are illuminated, and at which strength.

The 3 different light settings work great in all kinds of lighting environments. Although this product works great as an all around Light, it also has several other uses. Attaching to a handbag for quick lighting, or attaching to the top of a book for great reading light are just a few examples of how the Smart Light can be so much more than just an every day light.

SMART/protect

We are proud to announce our newest addition to the Smart Range; the Smart Protect. This card holder not only holds up to 6 plastic cards, but will also protect you against RFID pickpocketing and NFC theft. Thanks to this products aluminium body and design, you no longer have to worry about anyone reading your personal information without you knowing.

The Smart Protect is made from a lightweight and tough aluminium, great for protecting your cards against potential damage. The Smart Protect comes in a wide range of sleek metallic colours which can be printed up to 4 spot colours, or engraved for a professional finish.

The Smart Protect features a simple sprung lever that once pulled, will push 6 cards up out of the aluminium case making them easily accessible. The Smart Protect is a great way to keep your cards safe from potential threats, but also keeps up with a professional appearance with its clean branding options.
