Smart Power Card+

We are proud to present our advanced generation Card+ powerbank with all the amazing additional features. Although marginally bigger in product size, the significant increase in power capacity at 4000 mAh makes it well worth it. With popular features such as the built in micro USB charging cable and lightening adapter remain the same in the Card+.

The newly designed powerbank now has the charging cable fully enclosed inside the casing allowing you the whole powerbank surface for your branding.
