

JELLYFISH CHARGER 1 METRE

Identical to the original jellyfish, but now available in recycled and environmentally friendly wheat straw material and a 1 metre long cable arm! Wheat straw is the stalk left over after wheat grains are harvested. Traditionally, it has been treated as a waste. In some countries, farmers burn it, contributing to air pollution and creating a public health hazard. When mixed with other materials, it becomes an amazing plastic substitute and helps against the impacts of plastic waste.

No matter the device, the ECO Jellyfish charger will keep you charging! Featuring Type-C, Lightning and Micro-USB connectors, you will be able to charge a wide range of devices- simply plug into a certified charger or computer to start charging your devices. Each of the Jellyfish's cable arms are between 95 - 105mm, with the USB and Type-C arm being 1 metre long. The 1 Metre long cable arm will come coiled up with a twist tie to ensure it is kept compact for shipment and transport.

Features

- ✓ Made from ECO-Friendly Wheat Straw material alternative
- ✓ 1 Metre long cable with USB and Type-C
- ✓ Flexi cables between 95 - 105mm
- ✓ Suitable for: Micro-USB, Lightning and Type-C
