POP SPIN

Fidget Phone Holder

BESPOKE DESIGN

Don't just be seen. Be held. Be spun. Be remembered.

With POP Spin, your message lives in the hands of your audience – literally.

Every time they spin, hold, or stand their phone, your brand is right there with them. Your phone becomes more than a device – it's a conversation starter, a brand builder, and a daily essential.

- ✓ Slide your fingers behind the holder for a steady, comfortable grip, making selfies, scrolling, and texting easier than ever.
- ✓ Choose any shape, design, or logo to make POP Spin uniquely yours. From bold brand statements to fun personal designs, the possibilities are endless.
- ✓ Prop your phone up in seconds for hands-free video calls, streaming, or browsing.
- ✓ Spin the top to improve focus or simply keep your hands busy throughout the day.

Bespoke Design Setup

Design your Acrylic Top

Choose a shape that will be able to stand your phone up but also stands out, like a brand icon or submark.

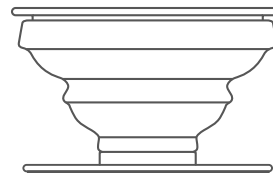

Design your Spinner

We recommend a logo, slogan, or part of the brand identity.

Bespoke Acrylic

Base POP Holder

End Result

Phone holder & fidget spinner all-in-one, made from a high-quality digital printed acrylic.
